■ 14" Widescreen Gateway to the World of Entertainment

The 14" widescreen A8Sc will change what you see and what you hear. With limitless mobility, you can embrace the world of entertainment with just a few clicks whenever and wherever. Open up the ASUS A8Sc and treat yourself to the ultimate visual and audio experience.

■ Dual Engines, Double Power

Equipped with the latest dual core technology, the A8Sc enables users to simultaneously run demanding applications, such as running virus scan while talking on Skype and surfing the web. The A8Sc exhilarating capabilities will immerse you in riveting vibrant entertainment at home or on the go with the built-in features of your new mobile dual-core processor-based laptops.

■ The latest 3D processing Power

Incorporated with NVIDIA GeForce 8400M G, the A8Sc delivers stunning, true-to-life visuals, incredibly

smooth video playback and exceptional graphics performance—from personal video recording and high definition TV, to enthusiast-level gaming.

■ **Wire-Free Video Communication on the Go**

Enjoy true wireless freedom with ASUS A8Sc notebook series. Built-in microphone and high-resolution webcam allow you to stay connected with family and friends without the hassle of external connections and tangling wires!

■ **Stay connected with wireless freedom**

Responding to the emerging demands of notebook users who have a number of simultaneously working Bluetooth peripherals on their system, including mice, keyboards, headsets, and mobile phones, the A8Sc notebook, with the built-in Bluetooth® V2.0+EDR, offer maximum data transfer rates of 2.1 Mbps, 3 times faster than the current device can manage, and hence reducing power consumption, which greatly benefits battery-dependent mobile devices. With the Cutting-Edge Draft-N WiFi Support, Intel®'s Next-Gen Wireless-N technology allow users to download stream HD video, music and data while providing up to an extra hour of notebook battery life when compared to existing Draft-N products

■ **Easier and Faster Digital Data Transmission**

The ExpressCard™ standard promises to deliver high- performance, modular expansion to notebooks at a lower cost and in a smaller form factor. You will be able to add memory communications and security devices by simply inserting ExpressCard™ modules into the A8Sc.
