■ ASUS S6 Leather Collection

The unique texture of leather instantly breathes glam and warmth into the otherwise cold and mechanical notebook. Fused with ASUS craftsmanship, the S6 Leather Collection. transforms your everyday computing experience. With hand-embossed leather, jeweled hinge and polished keyboard, the S6 excels in computing capability and leads the way to classic luxury.

The compact 11.1" widescreen design offers superior mobility and comfortable visual enjoyment. To satisfy the most demanding viewing standards, exclusive ASUS Splendid Video Intelligence Technology integrates different multimedia data sources to reduce noise and conversion rate for a sharp display. You will enjoy vivid images with better contrast, brightness, skin tone and color saturation.

Premium leather

Polished keyboard

Refined fast key design

*Available in 3 colors: Yellowish Brown, Dark Brown and White.

■ Story behind the Craftsmanship

ASUS has proved its ability on the ID of the product of the notebooks by winning international ID awards in recent years. To keep the non-stop creation, ASUS team put great effort to attempt new materials on its product. With more than one year research and development, the leather notebook is the fruitful result and it is thought to be a breakthrough achievement in recent notebook product markets.

■ Dual Engines, Double Power

Equipped with the latest low voltage dual core technology, the S6F enables users to simultaneously run demanding applications, such as running virus scan while talking on Skype and surfing the web with less power consumption. The S6F's exhilarating capabilities will immerse you in riveting vibrant entertainment at home or on the go with the built-in features of your new mobile dual-core processor-based laptops.

■ ASUS Splendid Video Intelligence technology

The exclusive ASUS Splendid Video Intelligence technology is especially effective for human skin tones, green stretches of grass and trees and blue sky and sea. It takes PC graphics capability to the next level by enhancing depth and color intensity in real time. It further improves contrast, brightness, skin tone and color saturation for vivid image display.

Incorporated with the exclusive ASUS Splendid Video Intelligence Engine (activation hot key: Fn+C), the LCD presents clear and sharp images in their true vibrant colors.

■ Easier and Faster Digital Data Transmission

The ExpressCard™ standard promises to deliver high-performance, modular expansion to notebooks at a lower cost and in a smaller form factor. You will be able to add memory communications and security devices by simply inserting ExpressCard? modules into the S6F.

■ Triple Speed Connection with Wireless Freedom

Responding to the emerging demands of notebook users who have a number of simultaneously working Bluetooth peripherals on their system, including mice, keyboards, headsets, and mobile phones, the S6F notebooks, with the built-in BluetoothR V2.0+EDR, offer maximum data transfer rates of 2.1 Mbps, 3 times faster than the current device can manage, and hence reducing power consumption, which greatly benefits battery-dependent mobile devices.
