

Belkin PureAV™ Digital Coaxial Audio Cable

AV50100-04 - 1.2m (4ft)
AV50100-08 - 2.4m (8ft)
AV50100-16 - 4.9m (16ft)

PureAV Silver Series Digital Coaxial Audio Cables provide an ideal solution for connecting DVD Players, CD Players and AV Receivers for Dolby® Digital and DTS surround sound. They feature advanced technologies and superior-grade materials such as PCOCC conductors, quad-shielding, and silver solder joints to deliver sound that is much more dynamic, fuller sounding, and more natural.

The Purest Sound

- Drastically reduces signal distortion for unrivalled audio clarity using 99.9997% oxygen-free, PCOCC conductors and high-purity, silver solder joints
- Maintains stronger signals that yield superior sonic accuracy using precision-formulated, nitrogen-injected dielectric material
- Isolates from outside noise for superior clarity with quad-shielding
- Protects against wire damage for consistently high-quality audio with integrated strain relief
- Maintains integrity, even when bent with abrasion-resistant, flexible PVC jacket
- Creates precise contact for low loss with split-tip, centre-pin, and 8-cut, 24k gold-plated connectors
- Provides comfort and ease of install with non-slip rubber grip and integrated colour-coding
