

Belkin PureAV™ High-Performance Speaker Wire

AV53102-30 - 9.1m (30ft)
AV53102-50 - 15.2m (50ft)
AV53102-100 - 30.5m (100ft)

Ideal for full surround sound speaker connections, PureAV Silver Series High-Performance Speaker Wires are CL3-rated for safe in-wall installation. They feature hybrid-conductor technology and 99.9997% oxygen-free, PCOCC, solid-core conductors for maximum sonic accuracy.

For even smoother sound, you can terminate your Speaker Wire with high-quality, 24k gold-plated, PureAV Do-It-Yourself Speaker Spades, Banana Plugs, or Speaker Pins (sold separately).

The Purest Sound

- Drastically reduces signal distortion for unrivalled audio clarity using 99.9997% oxygen-free, PCOCC conductors
- Optimises performance at all frequencies for consistent, exact sound reproduction using hybrid-conductor technology
- Maintains stronger signals that yield superior sonic accuracy with precision-formulated, polyethylene dielectric material
- Enables safe in-wall installation and maintains integrity, even when bent with CL3-rated, abrasion-resistant, flexible PVC jacket
