

## Notebook Surge Protector with USB Charger

### Product Bulletin

#### Surge Protection and USB charging while on the road

Hotel rooms and airport terminals never seem to have enough power outlets to charge all of the devices of today's traveller. Add outlets and peace of mind while on business trips or holidays with the Belkin Notebook Surge Protector.

#### Warranties:

##### DATA RECOVERY WARRANTY

If this Belkin Surge Protector fails while properly connected and your hard drive is damaged, we will provide a professional data recovery service. This service will be performed by our partner Seagate™ Data Recovery Services.

##### LIFETIME WARRANTY

Belkin will replace, free of charge any Belkin Surge Protector that is defective or expires after protecting your electronic devices. There is no limit to the number of times Belkin will replace the expired Surge Protector. You only need to purchase the product once.

##### CONNECTED EQUIPMENT WARRANTY

Belkin will repair or replace any equipment damaged by a surge, spike, or lightning strike while properly connected to a Notebook Surge Protector up to the value of \$100,000.

## Product Features:

### 360° Rotating Plug

AC outlets are often positioned in the most inconvenient places, making it impossible to plug in power adapters and chargers. The patented 360° rotating plug has 4 locking positions (every 90°) so that it can be used in a vertical or horizontal orientation. This feature allows the Notebook Surge Protector to be plugged in and used in virtually any domestic wall socket.

### USB Charging Port

Most mobile devices are now charged via USB, eliminating the need to carry several power chargers with you. The Notebook Surge Protector features a surge protected USB charging port. The port is rated at 5V 1Amp ensuring charging compatibility with most devices including iPod™, BlackBerry™, mobile phones\*, MP3 players, digital cameras, portable GPS and portable gaming devices.

\*Motorola mobile phones require a specific charging cable (not included), please contact Belkin for your free cable.

### Network and Phone Protection

A notebook can be damaged or destroyed by a power disturbance through a telephone or network cable. The Notebook Surge Protector safeguards against such damage by incorporating a surge protected telephone/data combo port.

### Block Spaced Outlets

The Notebook Surge Protector features blocked spaced outlets to accommodate even the largest power adapters. This ensures that you will always have access to both outlets.

### Protective Cover

A protective plug cover slides over the rotating plug head to protect your bag and other items from being scratched or damaged.
