

Belkin PureAV Series 6-Way Isolator (3m Cord) + TEL + AV + F-TYPE + \$UNLIMITED Warranty

Part # F9G623au3M

The PureAV Isolator from Belkin offers power protection for home theatre, audio/video, and digital entertainment components. This new offering provides the best surge protection available, using intricate circuitry that we've encased in rugged, fire-resistant metal. Offering the highest joule ratings and superior features, the PureAV's key advantage is power filter technology (PFT).

PFT uses varying power filter levels to isolate and contain power line noise within individual pairs of receptacle banks. It provides the highest-quality protection available from overvoltages, and safeguards your sensitive home entertainment components from power line contamination, known as electromagnetic interference (EMI) and radio frequency interference (RFI).

Advantages

- Unlimited Connected Equipment Warranty
- 3m Heavy-Duty Power Cord delivers clean power through 14-gauge wiring.
- Isolator Filter Technology (PFT)-Isolates contamination to prevent AC and EMI/RFI to help provide quality sound and picture
- Satellite, Cable TV, Antenna Coaxial Protection-Protects connected components with two pairs of gold coaxial connectors designed to improve signal; also protects cable modems
- Diagnostic Indicator Lights-Warns of power problem before equipment is connected
- Lifetime Warranty
