

PureAV™ Home Theatre Power Console PF30 (AP20700au3M)

The Belkin Power Console PF30 is ideal for anyone who owns a home theatre system and is looking for an affordable power conditioning and control solution in a console configuration. With seven outlets and Phase 3 PureFilter Circuitry, the PF30 will protect and enhance your complete home theatre system.

Each PureAV Power Console is packed with innovative features, such as Multi-Phase PureFilter™ Circuitry, designed to remove electrical noise and provide clean and clear power to all of your valuable equipment. It isolates audio, video and digital components, and prevents noise created by one connected component from contaminating the entire system.

To deal with threats from sources other than your AC lines, all PureAV Power Consoles come with coaxial cable, pay-per view/phone and broadband Ethernet line protection.

Advantages

- Phase 3 PureFilter™ Circuitry with Video, Audio and HiCurrent™™ Filters
- 3 metre SD500 HiCurrent™ power cable with right angle plug
- Lifetime Product Warranty
- \$1,000,000 Connected Equipment Warranty
- 3245 Joules of Surge Protection. (A higher joule rating reflects longer product life)
- 165,000 Amp maximum spike current (A higher amperage rating reflects greater absorption capacity against lightning or sudden dramatic power spikes)
- 7 Surge protected outlets
- Slim console design fits perfectly in your Home Theatre cabinet
- Two line telephone protection with built-in telephone splitter
- Two pairs of Surge protected F-type connections to connect and protect set-top-boxes
- Surge protected coaxial AV connections to connect and protect TV antennae
- Surge protected Ethernet (RJ45) connections to connect and protect modems & networking equipment
