

C530dn

Professional in-house colour, delivered faster and more efficiently

To make the most of in-house colour printing you need a solution that's fast, versatile and tough enough for heavy workloads. And you need it to be affordable and easy to use. You want the C530dn.

As well as fast print speeds, stunning image quality and excellent media flexibility, this versatile, compact printer comes with advanced productivity features - including double-sided printing and built-in networking – that the whole team will appreciate.

What's more, it comes with a full three-year warranty at no extra cost.

True versatility

The C530dn lets you print an impressive variety of high quality single- and double-sided documents, from everyday emails and letters through to business cards, brightly coloured banners and customer-facing marketing material.

Effortless efficiency

The network-ready C530dn delivers efficient, affordable printing day after day. High yield toner cartridges, an expandable paper supply, an easy to replace drum unit and a convenient multi-purpose tray for specialist media makes life easy for everyone in the office.

Enhanced productivity

With a fast 'first page out' time and class-leading print speeds, the C530dn makes difficult deadlines much more manageable. A large memory and powerful processor make light work of large jobs and small, routine jobs are processed even more quickly thanks to its intelligent ECO mode.

Supporting your environmental policies

The C530dn has impressive green credentials. Automatic double-sided printing reduces paper use, its ECO feature help conserve energy and resources, and a special Deep Sleep mode cuts power consumption to less than 1.1W.

Robust and reliable

There's no need to pay extra for peace of mind: the C530dn comes with an industry-leading three-year warranty as standard. It's all down to our ultra-reliable digital LED technology with fewer moving parts, supported by durable components and a robust, built-to-last design.
